ASSEMBLY OF LOWER GUARD TO UPPER GUARD

GUARD ASSEMBLY

*Some units are built with 2 of these guard retainers (117806) and 5 screws (item 15), in place of four 96621 guard retainers and 3 screws.

1. Hang outer ring (13) on bosses located on upper guard and mount two guard retainers (14) using two self-tapping screws (15) into pre-drilled holes on outer side of guard. Tighten screws to seat support washers.
2. Hang inner ring (13) on bosses located on guard and mount two guard retainers (14) using one self-tapping screw (15) and one thumb screw (16) on inner side of guard. Thumb screw to be used in boss nearest to kickback assembly. Tighten screw and thumb screw to seat support washers.

NOTE: It is not necessary to remove guard and blade from motor to remove or re-install the ring. To change blades remove thumb screw and washer by hand and the inner ring is easily removed. The upper guard with outer ring can be removed allowing blade to be changed.

IMPORTANT!

To assure product RELIABILITY, repairs, maintenance and adjustment, should be performed by Black & Decker Service Centers or other qualified service organizations, always using Black & Decker replacement parts.

IMPORTANT!

HOME & COMMERCIAL USE WARRANTY (A LIMITED WARRANTY)

Black & Decker warrants this product for one year from date of purchase. We will repair without charge, any defects due to faulty material or workmanship. Please return the complete unit, transportation prepaid to any Black & Decker Service Center or Authorized DeWalt Service Station listed in your owner's manual. This warranty does not apply to accessories. This warranty gives you specific legal rights and you may have other rights which vary from state to state. Should you have any questions, contact your nearest Black & Decker Service Center Manager.
